### PROFILE SUMMARY

- Full Stack Developer with 3+ years of experience building enterprise web applications using React.js, Next.js, Node.js, TypeScript, MySQL, and modern JavaScript frameworks.
- Experienced in developing scalable RESTful APIs, backend services, responsive user interfaces, and database-driven applications using Express.js, Sequelize ORM, SQL, and NoSQL technologies.
- Hands-on experience with Docker, Git, CI/CD pipelines, automated testing, cloud-native development practices, and Agile software delivery methodologies.
- Proficient in leveraging AI-assisted development tools including ChatGPT, Claude, GitHub Copilot, and Cursor AI to accelerate software development, code quality, debugging, and technical solution design.

### SKILLS

**Frontend** • React.js • Next.js • AngularJS • TypeScript • JavaScript (ES6+)

**UI Development** • HTML5 • CSS3 • Bootstrap • Responsive UI • Cross-Browser Compatibility

**Backend** • Node.js • Express.js • RESTful APIs • Web Services

**Database** • MySQL • SQL • NoSQL • Schema Design • Query Optimization

**Cloud & DevOps** • AWS (S3, EC2) • Docker • CI/CD Pipelines

**Testing** • RTL • Unit Testing • Troubleshooting • Debugging

**Tools** • Git • GitHub • Postman • JIRA • Fig

**AI-enabled development tools** • Cursor AI • GitHub Copilot, • Claude & Chat GPT • MVC

### EXPERIENCE

#### 4i Apps Solutions Pvt Ltd

Aug 2024 – Present

Full Stack Developer (Payday Suite - AI Integrated HRMS) 🔗

Chennai, TN

- **Frontend Developer** with **3+ years of experience** in designing, developing, and maintaining scalable web applications using **React.js**, **TypeScript**, **JavaScript**, **HTML5**, and **CSS3**.
- Experienced in building enterprise-grade **HRMS** and **Payroll** applications with a strong focus on responsive UI development, reusable component architecture, performance optimization, and modern frontend development practices.
- Proficient in **React Query**, REST API integration, state management, form validation, asynchronous data handling, and delivering highly interactive user experiences.
- Hands-on experience developing complex business modules, implementing dynamic UI components, performing code reviews, debugging production issues, and collaborating with cross-functional teams in **Agile/Scrum** environments.
- Skilled in frontend testing concepts, Git-based version control, Docker-based development workflows, CI/CD practices, and delivering high-quality software solutions from development through deployment.
- Strong problem-solving and analytical skills with proven success in delivering end-to-end features for large-scale enterprise applications while maintaining clean, maintainable, and scalable codebases.
- Hands-on experience with Git, Docker, CI/CD workflows, API integrations, and modern frontend development best practices.
- **Technical Skills:** React.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, React Query, REST APIs, Node.js, Express.js, MongoDB, SQL, Git, Docker, Agile Methodologies, Performance Optimization, Component-Based Architecture, and Application Debugging, AI-enabled development tools, Claude, Codex, Github Copilot,

- Developed and maintained responsive web applications using **React.js**, **JavaScript**, **HTML5**, **CSS3**, and Bootstrap.
- Built reusable UI components and integrated **REST APIs** to support business-critical workflows and improve application maintainability.
- Implemented dynamic forms, validations, and data-driven user interfaces to enhance user experience and reduce manual processing efforts.
- Collaborated with cross-functional teams to gather requirements, develop new features, troubleshoot issues, and deliver solutions in Agile environments.
- Participated in code reviews, bug fixing, performance optimization, and deployment activities to ensure application stability and quality.
- Worked extensively with Git version control and followed software development best practices throughout the project lifecycle.
